

Help Spread the Word About Safety Is No Accident

Community voices are an important part of the Safety Is No Accident campaign. Whether you're sharing information with friends and family, posting on social media, or encouraging your neighbors to participate, your outreach can help more people learn about the effort and share their experiences.

The sample messages below are designed to make it easy to spread the word. Feel free to copy, customize, and share them through email, text, or social media.

The goal is simple: encourage people across the region to visit SafeStreetsForUs.com and share their feedback about roads, intersections, crossings, and other transportation concerns they experience in their daily lives.

Sample Email Copy

Hey there,

In 2024 alone, our region saw thousands of crashes that resulted in injuries, serious injuries, and lives lost. CRTPO is now developing a Comprehensive Safety Action Plan to reduce these crashes for everyone who uses our roads.

Community input is a core part of this plan, and that's where you come in. CRTPO has put together a short survey to hear directly from residents about the roads, intersections, and crossings that feel unsafe in your daily life.

Take the survey: SafeStreetsForUs.com

Your answers will directly help shape where and how the region prioritizes safety improvements, so please take a few minutes to share your experience — and feel free to forward this to neighbors, friends, or family in the Charlotte area.

Thank you for helping make our streets safer for everyone.

Hi! I wanted to share this quick survey with you. If there are roads, intersections, or crossings in your area that you've ever felt were unsafe, take a few minutes to share your experience. Your input can help shape future safety improvements across the region. It only takes about 5 minutes: SafeStreetsForUs.com
